Dear Students,

Welcome to Moody Theological Seminary! We are delighted that you are taking classes with us!

We are committed to training our students to be Bible interpreters in a digital age. In order to accomplish this goal, we have partnered with Faithlife to provide a custom Logos Bible Software program for all our students. This resource is *required* for classes at Moody Theological Seminary. The Moody Logos Library (MLL) has been specifically designed to enhance your studies at seminary and to support your future ministry. This library will provide you with an amazing set of biblical and theological resources as well as select textbooks and powerful digital tools.

Because of our partnership with Faithlife, you are able to purchase this package at a discounted rate only available to Moody students. The cost of a Logos package **equivalent to MLL is well over $4,000;** however, as a **Moody student your offer is $1,200** and you have the option to set up a **payment plan over a period of several months**. If you have any farther questions please direct them to logos@moody.edu.

We encourage you to purchase the software and view the basic training videos before classes begin. Here's how you can order the software:

Go to https://www.logos.com/moody-seminary

Step 1: Enroll in Faithlife's Academic Discount Program. If you do not have a Faithlife/Logos account, you will be asked to create one. If you already have an account, make sure you are signed in appropriately. Make sure to accurately fill out the "Academic Information" section and upload an appropriate image for verification before submitting the application.

Step 2: After you are preapproved for the Academic Discount Program, return to the link above and click "Add to cart." Once the item has been added to your cart, select your payment options in the top left. You have the option to either pay in full or create a payment plan. Provide billing information and complete the checkout process.

Step 3: Install the Software. At the end of the checkout process, you will be provided with files to **download the software on either a Mac or Windows computer**. Installation instructions and system requirements can be found at https://www.logos.com/install. If you have any problems installing the software, don't hesitate to reach out to Faithlife's customer support team at https://faithlife.com/contact. You will also be able to access your resources using the incredible Logos mobile app or by going to app.logos.com. When downloading, **please choose the "*Everything*" option so that you have access to all your Logos resources and tools**.

Step 4: Start learning how to use Logos. We encourage you to view the "Welcome to Logos" video and the 101-103 training courses at www.logos.com/student-training. Bookmark this page for future use.

Note: If you have contacted Faithlife's Customer Support and are still having problems, please contact Chris McMaster by e-mailing him at Chris.McMaster@faithlife.com.

Logos is a significant part of equipping you for a future of ministry and faithful service to the Lord. We trust that it will be a blessing during your time at Moody.

Blessings,
-Logos@moody.edu
